

Cœur + AVC **Résultats de compétition nouveau chercheur nationale :** **2021/2022**

Le programme de bourses de la Fondation des maladies du cœur et de l'AVC fournit un soutien salarial aux meilleurs jeunes chercheurs canadiens. Ces personnes œuvrent dans les universités, les hôpitaux et les instituts de recherche au Canada, comme à l'étranger.

Belley-Cote, Emilie** (Department of Medicine – McMaster University)
Beyond the Scalpel: Optimizing Outcomes after Cardiac Surgery

Cluff, Tyler (Department of Clinical Neurosciences - Foothills Medical Centre)
RELEARN: Robotic Evaluations of Motor Learning during Stroke Neurorehabilitation

Ghugre, Nilesh (Physical Sciences – Sunnybrook Research Institute)
Image-guided response monitoring and therapeutics for ischemic heart disease

Ioannou, Maria* (Department of Physiology – University of Alberta)
The mechanisms and function of neuronal lipid particle release during ischemic stroke

Kim, Kyoung-Han** (Department of Cellular and Molecular Medicine – University of Ottawa)
Individual and overlapping roles of Iroquois transcription factors in the heart

Lawler, Patrick (Department of Medicine – University of Toronto)
New Pathways in the Prevention and Treatment of Acute Cardiovascular Disorders and Cardiovascular Complications of Critical Illness

Leung, Alexander (Department of Medicine – University of Calgary)
Evaluation of Diagnostic Testing for Primary Aldosteronism

**Barnett Scholarship*

***McDonald Scholarship*
